PRESIDENT'S REPORT

Vanda Yung welcomed and thanked everyone for taking the time to join the Board meeting. She expressed her love for March as it marks the beginning of Spring which symbolizes new growth and renewal. We need positivity despite navigating the current challenges to our budget and remain united in our mission to support families and individuals.

The Purim holiday is upon us, which celebrates the salvation of the Jewish people in ancient Persia, as told in the Book of Esther. March also celebrates the following holidays: Developmental Disability Awareness Month, Cerebral Palsy and Multiple Sclerosis Awareness Month, World Down Syndrome Day, and International Women's Day. We also recognize the victims of slavery and the transatlantic slave trade on International Day of Remembrance on March 25.

On March 3, Vanda, Jane Borochoff, and Zoey Giesberg attended ARCA Grassroots Day in Sacramento, visiting different legislators. Vanda also attended the monthly ARCA board meeting and delegate meeting. Vanda thanked Board Attorney, David Lester, for the in-person Board training in February. Vanda expressed her appreciation for WRC staff and vendor community for their tremendous efforts during the fires.

EXECUTIVE DIRECTOR REPORT

Jane began her report by introducing WRC's new CFO Robert Kutaj, who goes by Bob. Bob was previously the Controller of North Los Angeles County Regional Center. We are excited that he is here with us.

Jane then announced two promotions into leadership positions: Ricardo Pacheco will be the Associate Director of Community Services and Candace Hein will be the Associate Director of Client Services.

There is an upcoming event with the Director of State Council on Development Disabilities, Aaron Carruthers, on Thursday March 27, 2025 at 1:30 p.m. He will be discussing the important topic of the recent Medicaid update.

Robert Kutaj, CFO, originally from the Midwest is thrilled to be joining the team and stated that California offers the best care for the developmentally disabled of any state. He is excited to bring his knowledge, time and patience to his new position.

Suzy Requarth, Director of Client Services, provided an update on fire relief from January, informing everyone that Client Services continues to check in on about 170 families regularly. Additional service hours were approved for families that need extra support. Many donations were received at WRC which were offered free to the public. Suzy expects that the outreach and fire assistance will happen for the next few months.

Jane thanked Suzy and the Client Services Department for their commitment during this difficult time.

Jane discussed the annual public POS, or Disparity meetings, which will present information about service spending and community demographics. The first meeting is March 20, in person at WRC and the second meeting will be virtual on March 25, both in English and Spanish.

Jane concluded her report by thanking and honoring the women-led Board of Directors and all of the women who support and serve at WRC. Happy International Women's Day.

Attendees: 52

Approval of Notes: Approved

Jane: Updates Budget Medicaid and Medical we don't know if there will be an impact But WRC is being in proactive about this at GrassRoots Day and did get in front of state legislators about this. DSP Senate Bill 422 (Workforce Policy Bill (SB 422 - Grayson)- People served by regional centers need services provided by staff known as "Direct Support Professionals" (DSPs). A long-term problem is the shortage of DSPs. This problem is getting worse and is causing people with developmental disabilities and their families to get less services than they need. The California Workforce Development Board is the state's expert on solving this kind of problem. This bill requires the California Workforce Development Board to look at more than 50 studies that have been done to understand the DSP workforce and recommend solutions. Solutions might include DSP pay and benefits, helping people learn about DSP jobs, and other creative ideas) people served CA Workforce development board to get involved within the issues with DSP. Announced the new team member Bob the new CFO. This was a lengthy process including multiple interviews and then final in person interviews that is why it took so very long. Nick Adolofo is still out on leave and the accounting dept is still very short staff. The move to new building will be taking place 777 aviation in El Segundo. Hopefully this will take place before projected 2026. Could happen maybe by Fall. There will be a soft launch within the vendors.

Bob CFO: Introduced himself. Background in NFP's. Came from NoCal WRC. Promises to be available. bobk@westsiderc.org goal to respond to communications withing 24 hours.

Andy and Ricardo: Andy: Big thing rate reform and implementation 03-31 rate acknowledgment form MUST be in everyone needs to do this. All Vendors need to get these form in. Phase 3 rate is retro to January. There has been some errors within the system with DDS so there are going through and fixing these errors. Service Code transition will happen ASAP. Residential Homes if 113 facility on track to cross walk over to a board and care home if you are an Arm level home and think you should be cross walk over to a level 7. An Arm level home has to follow the service level increase is a different process (WRC staff will help out with this). Ricardo: We are at 50% of forms turned in. As of last week the rate with those vendors that are not cross walking the effected rate is 1/1 retroacted. There has been conflicting info from DDS as this point he will wait top share info because it's difficult to walk back. Tomorrow there is a meeting for residential providers that have completed the form going from level 5 to level 7 requirements that he strongly suggests that you attend. 11-12.

Treasury Department Announces Suspension of Enforcement of Corporate Transparency Act Against U.S. Citizens and Domestic Reporting Companies

March 2, 2025

The Treasury Department is announcing today that, with respect to the Corporate Transparency Act, not only will it not enforce any penalties or fines associated with the beneficial ownership information reporting rule under the existing regulatory deadlines, but it will further not enforce any penalties or fines against U.S. citizens or domestic reporting companies or their beneficial owners after the forthcoming rule changes take effect either. The Treasury Department will further be issuing a proposed rulemaking that will narrow the scope of the rule to foreign reporting companies only. Treasury takes this step in the interest of supporting hard-working American taxpayers and small businesses and ensuring that the rule is appropriately tailored to advance the public interest.

“This is a victory for common sense,” said U.S. Secretary of the Treasury Scott Bessent. “Today’s action is part of President Trump’s bold agenda to unleash American prosperity by reining in burdensome regulations, in particular for small businesses that are the backbone of the American economy.”

Parent Navigators in Pediatric Clinics to Support Service Access

By: Program Director Christine Bottrell Mirzaian, MD, MPH
Director, Clinical and Community Services, USC UCEDD
Assistant Professor of Clinical Pediatrics, Keck School of Medicine of USC

Purpose

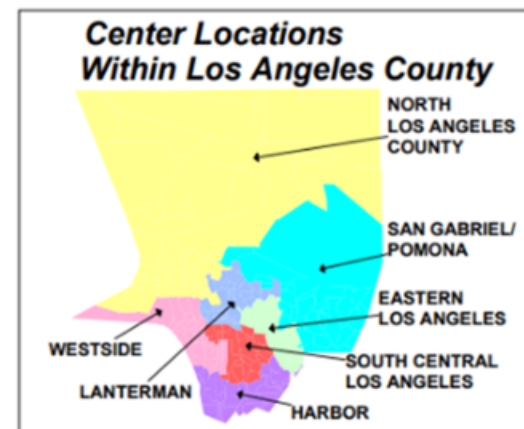

- The Parent Navigator program received funding from the DDS Service Access Equity grant program in 2017 and the program started in July 2018.
- The Parent Navigator program was created to work one-on-one with families to connect them to Regional Center services including Early Start and Lanterman Act services for children with developmental disabilities. The program also helps families obtain generic services.

Data Overview

- Parent Navigators serve about 1,200 families a year.
- Parent Navigators help submit about 350 Early Start referrals and about 150 Lanterman Act service referrals a year.
- Parent Navigators provide Regional Center service navigation to about 800 individuals a year.
- Parent Navigators provide generic service navigation to about 400 individuals a year.
- For our current grant cycle, we have worked with 37 families from Westside Regional Center so far.

Who We Serve

- We receive referrals from AltaMed General Pediatrics clinic at CHLA.
 - 85% of the population we serve are of Hispanic/Latino ethnicity and 50% are Spanish speaking.
 - Majority are low-income
- Serve families from all 7 L.A. County Regional Centers.
- We've extended our project to include community clinics such as Watts Healthcare which has additional families from Westside Regional Center.

Parent Navigators in Pediatric Clinics to Support Service Access

4 Full-Time Parent Navigators (PNs)

- Encourage families: “I have been there.”
- Helping parents understand the behaviors of Autism.
- Help families with the intake process, filling out forms.
- Identify needed information from providers.
- Follow-up with and continue to support families.
- Trouble shoot issues – reach out to service coordinators.
- Lead families through the appeal process when needed.

What the latest Medicaid updates could mean for your family

with **Aaron Carruthers**
Executive Director of the
State Council on Developmental Disabilities

Presented by **Undivided** in partnership with:

Thank you for RSVPing to our virtual event about proposed cuts to Medicaid and how we can make a difference. [Here is the link to the replay](#) featuring Aaron Carruthers, Executive Director of the SCDD, and we also wrote up a [recap of the highlights](#). Here are the key points:

What to know about Medicaid funding

Medicaid is a federal program that provides funding to states to help run health insurance programs for people who would otherwise have a hard time affording health care. California [uses money from taxes plus federal Medicaid funds](#) to pay for Medi-Cal and other disability support programs like Regional Center and IHSS, so if federal funding is cut, the state has to decide whether to raise taxes to make up the difference or to offer fewer services.

Proposed cuts to Medicaid

In February 2025, the U.S. House of Representatives voted on a plan that would cut \$880 billion from Medicaid over the next 10 years. These cuts would affect 43% of Californians who access programs that use Medicaid funding. Carruthers explained that there are still multiple steps before the cuts are officially implemented:

What Is Congress' Plan?

Where are we now?

California State Council on Developmental Disabilities

What this means is there is still time to make an impact at the federal level!

Tell your story

The SCDD has prepared an [online form](#) (available in English and Spanish) to collect written stories to share with policymakers. Use the form to describe what programs like Regional Center, Medi-Cal, or IHSS mean to your family and how you would be affected if you couldn't access them.

Tell your Medicaid story

Tell your Medicaid story

You can also reach out directly to the congresspeople who represent your family and tell them your story. [Look up your senators and representatives here](#). Carruthers says, "You are helping your representative understand the impact of their decisions. Elected officials remember the people they meet and their stories."

How to tell your Medicaid story

to policymakers to help protect federal funding

- My name is _____.
- I live in _____, (city or county in their district)
- I am a _____, (person with a disability, family member, caregiver, provider)
- Here's what my life is now because of Medicaid programs:

Example: "I live at home in my community, not in an institution," "My child can work/volunteer/go to school..."

- Medicaid programs make this possible:

Example: "I rely on people paid by Medicaid to help me get where I want to go," "Because we get help from the Regional Center and IHSS, my family can..."

- Cutting Medicaid funding will mean I can't live my life as I do now.

Recognize the Signs and Report Exploitation, Human Trafficking: Natural disasters, like the recent LA wildfires, create chaos and displacement leaving many people vulnerable to exploitation including human trafficking.

People seeking work after a disaster should be cautious about job offers that sound too good to be true. Human traffickers use false promises of high wages and effortless jobs to lure people into dangerous situations. [Click here](#) to learn more.
